

## Affordable Care. Access to All.

Lamprey Health Care is a community health organization with health centers in Nashua, Newmarket and Raymond, New Hampshire. We provide primary health care services to all ages, with an emphasis on disease prevention and lifestyle management, **regardless of the patient's insurance status or their ability to pay.**

## Expanding to Meet Nashua's Needs

The Nashua Center experienced a 27% growth in patients from 2008-2010. Our current facility within Southern NH Medical Center is extremely overcrowded, and the hospital needs our space for other services. The new Nashua Center will provide our patients and their families with a larger waiting room for both adults and children, more exam rooms, and more staff so that we can reduce patient wait time.

## Our New Center – Opening in Fall 2011

LAMPREY HEALTH CARE  
NASHUA CENTER

The new Nashua Center will be located at 22 Prospect Street, the former Home Health & Hospice building. Currently operating at 8,500 sq. ft., this extensive renovation and expansion project will provide an additional 7,000 sq. ft. for enhanced patient care and additional programs and services.

When completed, the Nashua Center will offer the community:

- 21 patient exam rooms
- A larger waiting room with a separate children's area
- Offices for providers & clinical support staff
- Offices for a diabetes educator, nutritionist, social workers and substance abuse counselor
- Community areas for patient education classes, workshops, group sessions and general community use

## We Need Your Support

Funds for this \$4.7 million project are coming from many sources: Federal & State grants, foundations, Southern NH Medical Center, Lamprey Health Care, Nashua area businesses & individuals, and our board & staff members.

We're close to reaching our goal, but we need individual contributions from YOU, our patients, neighbors and friends, to help us get there. Your contribution will help purchase medical equipment and supplies for the new center.

## Please Join Our Campaign!

Help us build a medical home for the Nashua Community. We welcome donations of any size. Pledge forms are available at the Nashua Center or by calling (603) 883-1626, and on our website at [www.lampreyhealth.org](http://www.lampreyhealth.org)
