

Section 2: MISSION & COMMUNITY SERVED

Mission Statement: The mission of Lamprey Health Care is to provide high quality primary medical care and health related services, with an emphasis on prevention and lifestyle management, to all individuals regardless of ability to pay.

Has the Mission Statement been reaffirmed in the past year (*RSA 7:32e-1*)? Yes

Please describe the community served by the health care charitable trust. "Community" may be defined as a geographic service area and/or a population segment.

Service Area (Identify Towns or Region describing the trust's primary service area):

Lamprey Health Care has multiple sites and service areas. We have sites located in Newmarket, Raymond and Nashua.

Our medical facilities in Newmarket and Raymond, New Hampshire include a transportation program serving individuals from 28 communities in Rockingham and Strafford Counties. Our service area for medical care for the Newmarket and Raymond centers consists of the following communities:

Atkinson, Barrington, Brentwood, Candia, Chester, Danville, Deerfield, Derry, Durham, Epping, Exeter, Fremont, Hampstead, Hampton, Kingston, Lee, Londonderry, Newfields, Newmarket, Newton, Nottingham, North Hampton, Northwood, Plaistow, Raymond, Rye, Sandown, Seabrook, and Stratham.

Our medical facility in Nashua, New Hampshire currently serves individuals from the greater Nashua area. The majority of the patients live in the downtown Nashua area which has been federally designated as a Medically Underserved Population. The service area of Lamprey Health Care's Nashua Area Health Center consists of the following communities:

Amherst, Brookline, Hollis, Hudson, Greenville, Litchfield, Lyndeborough, Mason, Merrimack, Milford, Mt. Vernon, Nashua, Pelham, and Wilton.

Service Population (Describe demographic or other characteristics if the trust primarily serves a population other than the general population):

Although Lamprey Health Care does serve the general population, a large percentage of Lamprey Health Care patients includes the uninsured, underinsured and indigent. In Calendar Year 2016, LHC served an aggregate total of 15,270 patients with a total of 57,978 visits throughout our sites. In 2013 and 2014, due to Medicaid expansion, Lamprey Health Care saw significant declines in the number of uninsured patients. In 2016, the number of uninsured patients remains unchanged from 2015 at 18%. Over 27% of patients are covered by either regular Medicaid or one of the Medicaid Expansion plans. The number of uninsured patients does not reflect the increasing number of patients with high deductible health plans. The percentage of patients with income 200% and below Federal Poverty Guidelines is 71%. Over 22% are best served by a language other than English and 18% are Hispanic.

Section 3: COMMUNITY NEEDS ASSESSMENT

In what year was the last community needs assessment conducted to assist in determining the activities to be included in the community benefit plan?

2016 *(Please attach a copy of the needs assessment if completed in the past year)*

Was the assessment conducted in conjunction with other health care charitable trusts in your community? Yes

Based on the needs assessment and community engagement process, what are the priority needs and health concerns of your community?

Please provide a description of the methods used to solicit community input on community needs (attach additional pages if necessary): In 2016, Lamprey Health Care worked with a group of community agencies to conduct a Community Needs Assesment (see the 2016 Exeter Area Community Needs Assessment submitted on our behalf by Exeter Health Resources).

The following methods were used to conduct the community wide needs assesment:

A) A random household telephone survey was conducted by the University of New Hampshire Survey Center.

B) Community Forums were held in Raymond, Plaistow, Exeter & Seabrook.

C) An online survey offered to employees of Exeter Hospital, Core Physicians, and Rockingham VNA & Hospice. In total 314 people completed the survey.

D) Key Leader Interviews were conducted. Interviews of 19 Key Leaders were conducted in May, June and July 2016. Many organizations are listed above. Key Leaders were from the organizations listed above.

E) Secondary resources to obtain demographic and other data regarding the health status of the communities we serve.

In 2014, Lamprey Health Care participated in the Greater Nashua Community Health Needs Assessment as part of the advisory committee. Sources were both primary and secondary, including community surveys, key leader interviews, and focus groups. This process will be repeated in 2017.
